I’m angry. I’m fucking sick and tired of people saying, “Imagine if the races were reversed.” Yes, and that is the only thing you can, namely imagine it, because it never happens in real life. Whenever there is a brutal and violent crime perpetrated by a non-white against a White person, no matter who they are or what the crime is, there is simply no real-world equivalent. I have never heard of a White couple who adopted a Black female toddler, who then brutally beat her to death for no reason. Remember Cannon Hinnant, the White pre-school boy who was executed point-blank by his nigger neighbor? When have you ever heard of a White adult male executing in broad daylight a black toddler on his own front lawn? No such comparable example exists, because trust me, if there was such an example, there would be monuments to it in effigy.

> Last week, authorities in South Carolina revealed that Tori had perished as result of multiple blunt-force injuries to her tiny head. She was beaten to death. Her adoptive parents, Ariel and Jerry “Austin” Robinson, are now charged with homicide by child abuse. A six-page police incident report describes how first responders rushed to the Robinsons’ home on the afternoon of Jan. 14, 2021, after Mr. Robinson called 911. Little Tori was not breathing. EMTs performed CPR. She was rushed to the hospital, where she died. Investigators immediately suspected child abuse.

Every single person who knowingly supports racial integration and diversity has this girl’s blood on your hands. Every single elite who supports integration has blood on their hands. Every politician who continues to repeat the line that diversity is our greatest strength, or who says White Supremacist Terrorism™ is on the rise, or who refuses to allow White people to have their own neighborhoods or hangouts or schools has this and millions of other White people’s blood on their hands. Fuck conservatives who say imagine if the roles

were reversed. The roles are never fucking reversed, you utter incompetent whiny twats!! White people are always the innocent victims and never the perpetrators of racial terrorism. They know it, they don't care. Anyone who denies White people the right to take their own side is guilty of Tori's murder.

PS: The niggers who did this were awarded worst cooks in America on the Food Network. The TV station quietly pulled the plug on the show after Tori's murder. But hey, I thought we needed diversity because muh ethnic food! Just shaking my head.
